## ABOUT ME

I started my racing career as a rally Co-Driver with 14 years. Since the age of 17, I am now a rally driver with some outings on the circuit as well. I was part of the Red Bull Rally Junior Team for three years and won the German Rally Championship.

My first job as precision driver was in 2012. Since then, I was driving for several car commercials, reportage's for the German TV and short scenes in the movies.
