Shoes: 44

ABOUT ME

I started sliding cars with 14 years of age and pursuing and improving the sideways driving style ever since.

Since 2006, I have been a thrustworthy choice for many car companies, either as a test/demo driver or as a precision driver, specializing in difficult high performance hero car sideways action scenes etc.

RACING CAREER

- Five time Austrian drift champion
- German vice champion in 2006
- Several Italian drifting competition victories
